

1. Saudi Arabia in Nine Acts  
by Alberto Zannoni

1. It should be noted that Saudi Arabia is developing its infrastructure fast and has some of the most impressive airports in the world too.
2. Since late 2019.
3. Disclaimer The following opinion piece touches upon a series of different topics the coverage of which should not be considered as exhaustive. The reader should bear in mind the complexity of each of the nine subjects presented. The following text should be interpreted as a short summary of the writer's experience as a way to share his newly acquired knowledge with others. The writer does not intend to provide consent or dissent to the policies implemented by the Kingdom of Saudi Arabia, but simply improved the reader's understanding of this country and stimulated the reader's reflection. The writer invites the reader to conduct her own independent research and verify any claims made in the following text. Some of the names in the following piece of work have been concealed to preserve the speaker's anonymity.
